#### Claim Rejection under 35 U.S.C. 102 (b)

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-10,12-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Thompson et al (Weed Science, 1996, vol. 44 no. 3, pp. 469-75. Thompson teaches a pesticide composition comprising the instant silicone compound of instant claim 1 where R1 = R2 = CH3, Y = 1, Z = (CH2CH2CH2)OCH2CH2OH plus a pesticide (active) plus crop oil concentrate (vegetable oil).

#### Claim Rejection under 35 U.S.C. 103 (a)

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Thompson et al on record.

Application/Control Number: 09769388

Page 3

Art Unit:

5. Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Thompson et al as applied to claims 1-10,12-14 above. Thompson teaches all that is recited in claim 11 except for the composition comprising the instant pesticidal actives. However, one having ordinary skill in the art would have been expected to develop a composition comprising instant pesticidal actives. One would have been motivated to do this since Thompson teaches a composition comprising a pesticidal active.

### Telephonic Inquiry

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alton Pryor whose telephone number is (703) 308-4691. The examiner can normally be reached on Monday through Friday from 8:00 a.m. to 4:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jose Dees, can be reached on (703) 308-4628. The fax phone number for this Group is (703) 308-4556.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-1235.
